

Advanced Reporting

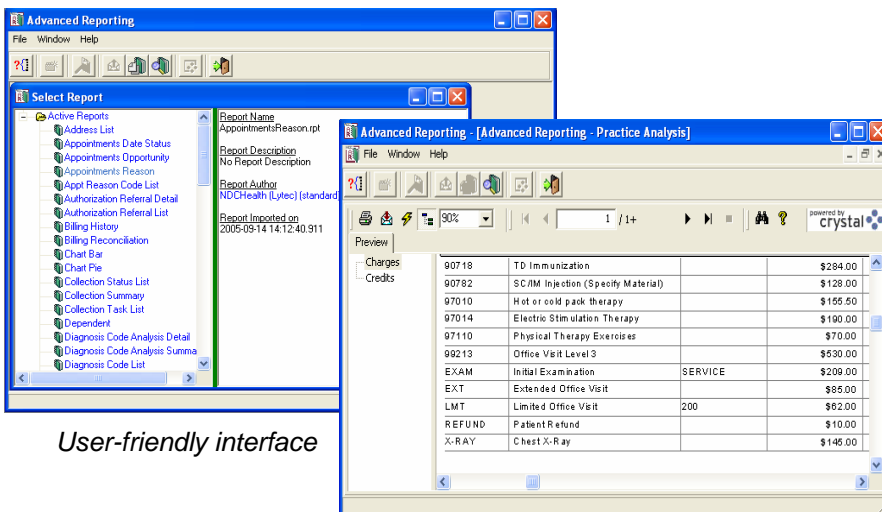

Affordable Solutions to Fit Your Practice

New Option Now Available with Medisoft Version 11!

Transform your medical practice data into actionable information with custom and new reports using Medisoft Version 11 Advanced Reporting.

Flexible and Secure

- Easily modify many existing Medisoft Version 11 reports
- Customize and organize reports through user-defined folders
- Customize many standard Medisoft reports or create entirely new reports through user-defined tables
- Import existing reports you may have created using Crystal Reports from a prior Medisoft version

User-friendly interface

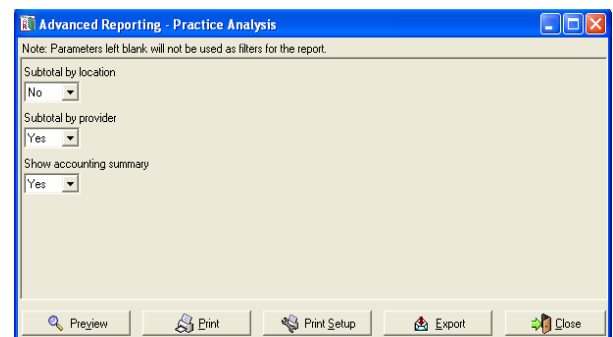

Select and run reports easily

Robust Data Mining

- Create and customize report filter parameters
- Create entirely new reports using Crystal Reports Professional

Intuitive

- User-friendly interface enables users to easily run new or modified reports
- Drag and drop custom reports and folders within a tree structure

Create and customize parameters for report filtering

Industry Standards

- Medisoft Advanced Reporting is based on the Industry-standard report writer, Crystal Reports from Business Objects
- Easy report and data export to Adobe (PDF), HTML, Excel, Word, ODBC, XML and RTF file formats
