

**Upgrade your Medisoft directly with our company, and Get the *Best Pricing Anywhere!***

**Medisoft® powered by eMDs is a proven, trusted, and affordable practice management solution designed to simplify the way you run your practice.**

### **What's New in Medisoft V22?**

Medisoft is already one of the most mature practice management systems on the market. It gets better each year as eMDs adds new layers of functionality and improved usability. You asked for these enhancements, eMDs delivers! Here are just a few notable additions:

#### **New Medicare Billing Requirement in 2018 - MBI**

In 2018, a regulatory requirement to issue new Medicare identifiers to patients will begin. In addition to saving you money, the new Medisoft V22 system will support the transition to the Medicare Beneficiary Identifier (MBI) to ensure support for your practice with Medicare claims, claim status, eligibility status, and payment. ***If you bill Medicare claims, then V22 is a must for you.***

#### **Accounts Receivable Tracker**

The new AR Tracker tool allows your staff to drill down into their Accounts Receivable and work outstanding balances from within Medisoft. With advanced filtering capabilities and the ability to create and assign tasks, staff can create the exact workflows they need to ***follow up on balances and bring more of your revenue back in the door.***

#### **Enhanced Eligibility Checking**

With the shift in payment responsibility to patients, it's more important than ever to get up to date eligibility benefits information at or before the time of service. eMDs has invested in major upgrades to the eligibility checking system including better automation with the integrated EDI partner clearinghouses.

#### **Payment Posting Improvement**

Batch posting of remittances has been upgraded to allow you to partial post. You can print an EOB for a single claim. New filtering options make it easier to find claims that are ready to post and make you more efficient.

#### **Claim Status Checking**

Now you can initiate a true claim status check through your clearinghouse and receive an electronic response that updates the status of claims making it even easier to know if you're going to be paid.
