The Comparison Chart above desplays which features are available in each of the three (3) Medisoft products:

- 1. The Basic Patient Accounting MedicServe Item2
- 2. The Advanced Patient Accounting MedicServe Item3
- 3. The Network Professional Patient Accounting MedicServe Item 4

## In general, we recommend:

- 1. The Basic Patient Accounting is mainly for Billing Services just starting out, without having any Physician Client. This is the least expensive option to start a billing service and train using Medisoft. Some small Medical Offices with limited number of claims, or limited coding requirements can also use the Basic Program. The Basic works only on one Computer.
- 2. The Advanced Patient Accounting is for Medical practices, or established Billing Services that demand more advanced and efficient billing and practice management tools. The Advanced includes such features as a Patient Ledger, a Deposit Insurance EOB Screen, Patient Remainder Aging Reports, which are essential elements to achieve and maintain an efficient Medical Practice and Billing Service Operation. The Advanced works only on one computer.
- 3. The Professional Patient Accounting is for medical practices, or established Billing Services that want to maximize efficiency on all operational modes: billing management, revenue management, accounts receivable, productivity management. It comes with many professional tools designed to maximize insurance claim reimbusrhment, track provider productivity, keep track of insurance payment history, compare insurance reimburshment trends, and many many more. The Professional is the only program that can also be networked on multiple computers.

Please call 888-987-9335 or 631-941-1014 if you need additional information.
